SUSTAINABILITY REPORT 2015-2017

SUSTAINABILITY TARGETS

ENVIRONMENTAL, SOCIAL AND CULTURAL REPORTS

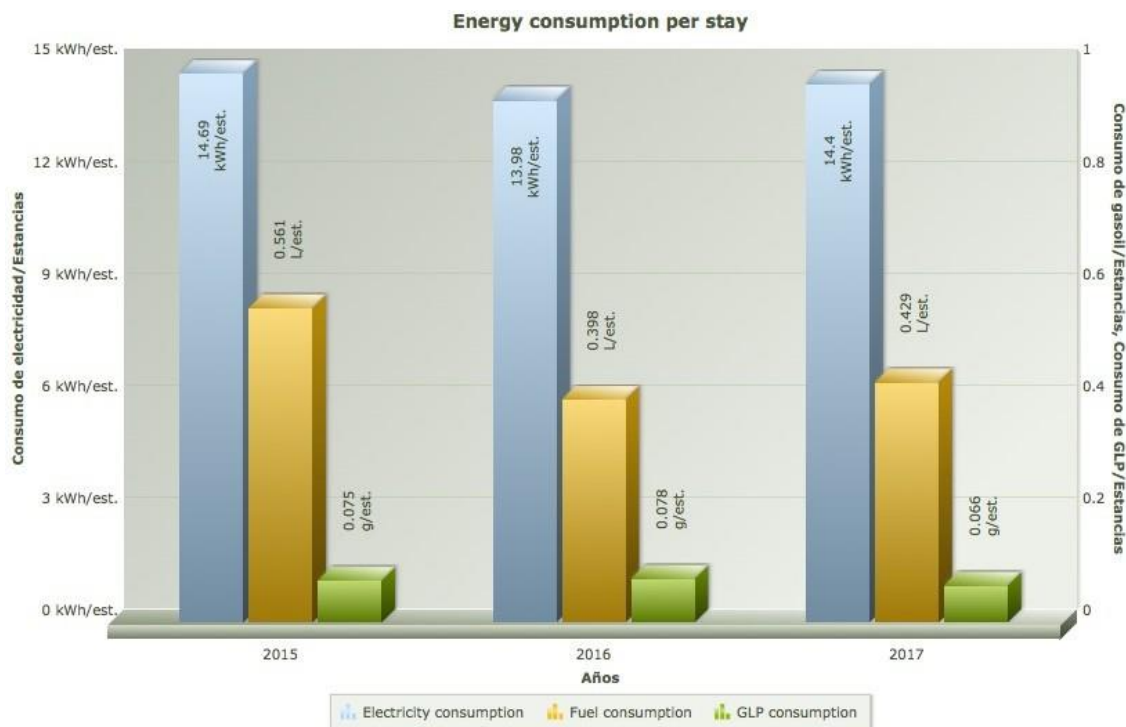

A sustainability indicator is any economic, social, political, or biological element that provides information about certain aspects of the natural world, environmental policies or other related economic and social factors. **A sustainability indicator system enables us to make strategic, environmental and social decisions and helps us to turn this information into action.**

We use the tool Sustainablekeyindicators.com, based on the GRI (Global Report Initiative), the international guide more used for sustainable development and indicator guidelines.

The aim of this management is to evaluate sustainable behavior to provide us information in order to ascertain whether our organization has the ability to meet the established requirements, whether these be legal requirements or ones to which the Management or third parties must adhere (Travelife System,...)

LOCAL PRODUCT INFORMATION

In order to strengthen and support local agriculture and livestock, Garden Hotels has several agreements with local cooperatives, through which it allows them to perform and offer their workers and end customers several actions that help on the one hand to offer a local, sustainable product and of quality and on the other hand to strengthen local agriculture and livestock. This work that Garden does not only contributes to respect the environment, but also to make the local product known to its customers, promotes and guarantees a future for local agriculture.

- 
Collaboration agreement with the agro-alimentary Cooperatives of the Balearic Islands, Garden Hotel weekly purchases several products from these cooperatives and offers them, in the buffets of their hotels and identifies them with the Balearic flag, which recognizes the guarantee of quality in front of its clients of local products, and at the same time promotes the “Balearic Product” brand.
- 
Collaboration Agreement with APAEMA (Associació Producció Agrària Ecològica Mallorca), a non-profit association, formed in 2006 from the proposal of farmers aware of organic farming. This association produces, in addition to many other products and initiatives, organic lamb from Mallorca (“Me Ecològic”). This one is born and grows in totally ecological farms of Mallorca, it feeds mainly on maternal milk and the pastures of the farm. What guarantees meat 100% natural, local and of first quality, and of course, ecological. Everything that this animal feeds (pastures / breast milk / cereal) comes from organic farming and are free of pesticides, chemicals and transgenic. Garden Hotels supports this initiative with the purchase of 150 kilos per week of organic lamb to offer to its customers, a 100% natural, local and top quality product. Weekly offers several dishes to its customers with an exquisite presentation
